Learn more about this Webinar in a FREE Introductory Call. Check <http://sixweekwebpage.blogspot.com> for dates and times. New webinar session dates coming soon! Only 8 participants per session, email and reserve your spot today!

Week 1 – Get Acquainted

Get familiar with our online learning environment, see examples of other websites that were created using the tools you'll be learning, explore what can be done on the web using feedback from pre-class questionnaire and prep-work.

Week 2 – Develop Your Content

Use examples from websites you like and homework assignments to develop a compelling message.

Week 3 – Create Your Blog Account

Walk through a 3-step process to create your account.

Week 4 – Design Your Webpage

Learn how to design and layout your webpage and then build your business's web page. No HTML skills required.

Week 5 – Integrate PayPal*

Open a PayPal account. Learn invoicing on PayPal. Through PayPal's simple user-interface, build a PayPal button and add it to your business's webpage. *Some services require membership or subscription.

Week 6 – Add a Newsletter or Mailing List Subscription Link*

Q & A / Open Forum covering newsletter sign-ups, mailing list and much more.
